

BECAUSE SAFETY MATTERS

FIVE TO STAY ALIVE

SWANA wants you to go home to your family every day, safely. Never use your cell phone or text while operating machinery or working in a waste-to-energy facility

Following these rules will keep you safe!

For more [#SWANAsafety](https://www.swana.org/safety) info and resources visit [SWANA.org/safety](https://www.swana.org/safety)

Safety Tips for Waste-to-Energy Operations

Wear PPE at all times, this includes, safety glasses, steel-toed boots, hard hat, ear protection, arc/flame resistant clothing, and long-sleeve shirts

Complete site specific safety training prior to entering any processing areas, and complete necessary job specific training prior to working

Stay out of danger zones and at least 15-feet in front of and behind mobile equipment (loaders, tractors, compactors, dozers, etc.)

Pay attention to restricted areas protected by yellow caution tape and never cross areas marked off with red danger tape

Always follow lock out/tag out procedures. No matter how quick or seemingly simple the task

**Following these rules will
help keep you safe!**
