News Release

AET GROUP COMPLETES CORPORATE BRAND AND LAUNCHES NEWLY DESIGNED WEBSITE

AET Group is excited to announce the launch of their newly designed website that is the result of work done by AET’s dynamic team and tbk Creative over the past 8 months! The site is located at our new website address at www.aet98.com.

The site’s homepage welcomes visitors with bold colours, a clean uncluttered design, and reinforces AET’s commitments that our clients have grown to value and trust over the past 15 years – Your Trusted Partner for Sustainable Solutions.

The website features new types of rich content, inspired by our experience, gathered materials and a great team of people working at AET Group. Current and prospective clients will find detailed information about AET’s environmental consulting, auditing and scientific services and resources offered.

Advantages of the new website include a more robust page layout, easy navigation, more detailed information about AET services and projects and an easier way for clients to find key contacts, submit inquires and service requests.

“The new website is just the beginning of AET’s concerted effort to improve user experience, streamline service specification and educate clients on AET while giving us an improved vehicle for better communication and interaction with clients,” said Scott Freiburger, Managing Director and CEO.

We would like to thank our past and new clients for your continued support over the past 15 years and look forward to the next 15 years as we continue to fulfill our commitments to our valued clients.

We hope you enjoy exploring our new website and please feel free to send us comments or feedback you may have.

.....

AET Group is an environmental consultancy firm committed to our ecological, financial and social responsibilities, working together collaboratively to find innovative solutions that work and remembering that underneath it all, we’re human beings working with other human beings to make a difference both locally and globally.

AET Group is a multi-disciplinary environmental consulting, auditing and scientific services company providing professional services to the built and natural environments in the following core service areas: Solid Waste Management, Environmental Compliance, Environmental Audits, Natural Sciences, Sustainability, Air Quality & Climate Change, Environmental Remediation, Water Resources, Energy & Utilities, and Building Sciences. With over 1,000 projects completed across Canada, AET offers extensive experience, capabilities and a proven track record that, among other benefits, assures that our clients receive value-added services, credible results and effective solutions.
