

**Civil & Environmental Consultants, Inc. (CEC)** – St. Louis – welcomes **Donald A. Grahlherr, P.E.**, as a new principal in the firm's Waste Management practice. Mr. Grahlherr brings 25 years of experience with a range of geotechnical and environmental projects to his role as the practice lead for the St. Louis office.

Most recently with URS Corporation, Mr. Grahlherr's primary experience is in design, analysis and preparation of contract/permit documents for solid waste landfill and disposal pond design, as well as geotechnical investigations and recommendations for industrial foundation applications. He has practical field experience with investigation, construction, testing and instrumentation of earthworks and geosynthetic systems.

Mr. Grahlherr can be reached at [dgrahlherr@cecinc.com](mailto:dgrahlherr@cecinc.com), or by contacting CEC's St. Louis office:
