

## **JRMA's Principal, Doug Drennen Relocates to Lead Services in Northwest Region**

**(January 2014)** J.R. Miller & Associates (JRMA), architecture, planning, and engineering firm based in Brea, California is proud to announce that Doug Drennen, Principal has relocated to Washington State to service JRMA's clients in the Pacific Northwest region. Doug has been instrumental in expanding firm wide Business Development efforts and will focus on providing excellent service and design solutions to our clients in northern California, Oregon, Washington, Idaho, and Canada markets.

Joining JRMA in 2005, Mr. Drennen contributes over 36 years of engineering experience working with both public agencies and private consulting firms. He is a recognized expert in the solid waste industry for his technical knowledge and progressive development of successful solid waste plans, recycling plans, feasibility studies, retrofits, planning, transfer stations, material processing and recycling facilities (MRF's), composting facilities, alternative technology plants and waste-to-energy projects. His strong technical and business background provides a proven track record of successfully executing over 200 solid waste projects throughout the nation. Prior to joining JRMA Doug worked for in the solid waste industry in Oregon and Washington for 25 years for both private companies and public agencies.

JRMA is a recognized design industry leader in the Solid Waste, Aviation, and Industrial market sectors. JRMA has designed a number of award-winning projects throughout the United States, including the LEED Gold Certified project, Tacoma Recovery and Transfer Station in Tacoma, Washington. The project received the Solid Waste Association of North America (SWANA) Gold Transfer Station Excellence Award.

### **About JRMA ([www.jrma.com](http://www.jrma.com))**

Founded in 1982, JRMA is an Engineering and Architectural Design firm offering comprehensive services to commercial and institutional clients in the United States and abroad. Our in-house Architectural, Structural, Civil, and LEED/Sustainable design departments ensure we generate well coordinated, creative and value-based designs. We are focused on achieving our client's project goals and providing cost effective solutions. The firm has 3 additional office locations including Houston, Texas; Lexington, KY; and Portland, Oregon.
